

Rich content smoke test

This paragraph wraps **mixed inline runs** as one line box, including *italic text*, regular text, and a [linked run that can wrap](#). The link annotation follows only the linked fragments.

Long tokens still hard-break inside the paragraph:
**supercalifragilisticexpialidocious-supercalifragilisticexpialidociou
s.**

Plan comparison		
Feature	Basic	Pro
Inline text in a cell with bold and link	Yes	Yes
Priority review	No	Included
Footer cell spans all columns and keeps mixed inline content together.
